PROFESSIONAL SUMMARY

Senior *Full Stack Developer and Backend Engineer* with 3+ years of experience designing, developing, and deploying scalable enterprise-grade web applications using Angular, React.js, Next.js, Node.js, NestJS, and Python FastAPI.

Strong expertise in frontend UI development, backend architecture, REST API engineering, Microservices architecture, authentication systems, RBAC implementation, scalable enterprise workflows, and production-grade deployments.

Hands-on experience building enterprise medical systems, ERP platforms, AI-powered applications, barcode automation systems, intelligent backend APIs, and scalable cloud-based applications for U.S.-based clients.

Experienced in responsive UI development, enterprise dashboard systems, reusable frontend components, AI integrations, OpenAI APIs, AI chatbot systems, LLM integrations, FastAPI AI services, and intelligent enterprise automation workflows.

Proficient in Docker deployments, AWS cloud services, Azure DevOps, CI/CD pipelines, SQL Server, MySQL, MongoDB, PostgreSQL, Redis, backend optimization, scalable API systems, and production release management.

Skilled in Agile methodologies, scalable architecture design, debugging, automated testing, enterprise application delivery, and high-performance frontend and backend development.

TECHNICAL SKILLS

Frontend Technologies

Angular, React.js, Next.js, JavaScript, TypeScript, Angular Material, Bootstrap, Tailwind CSS, Redux, RxJS, Responsive UI Development

Backend Technologies

Node.js, Express.js, NestJS, Python, FastAPI, PHP, REST APIs, GraphQL, Microservices Architecture, JWT Authentication, RBAC, API Gateway, Socket.IO

Databases

MySQL, MongoDB, SQL Server, PostgreSQL, SQLite, Redis, DynamoDB, MariaDB, Sequelize ORM, Prisma ORM

Cloud & DevOps

AWS, Docker, Docker Compose, Azure DevOps, GitHub Actions, CI/CD Pipelines, Git, GitHub, Linux Deployment, PM2, Nginx

AI & Automation

OpenAI API, AI Integration, LLM Integration, AI Chatbots, AI Agents, Prompt Engineering, AI Workflow Automation, FastAPI AI Services, RAG Systems, Generative AI

Testing & Documentation

Jest, Cypress, Swagger, Postman, API Documentation, Unit Testing

Architecture & Scalability

Scalable Systems, Modular Architecture, Enterprise Applications, Secure APIs, Backend Optimization, Performance Tuning, Audit Logs, Multi-role Systems

PROFESSIONAL EXPERIENCE

Senior Software Developer – Sveltoz Solutions Pvt. Ltd., Pune

March 2025 – Present

- Architected and developed enterprise-grade medical and DNA analysis systems for U.S.-based clients ensuring scalability, security, and high performance.
- Designed scalable backend architecture using Node.js, NestJS, and Microservices architecture.
- Developed responsive enterprise dashboards and frontend modules using Angular, React.js, and Next.js.
- Built secure REST APIs with JWT authentication, RBAC systems, audit logging, and enterprise workflow automation.
- Integrated Python FastAPI services with Node.js backend systems for AI-powered enterprise workflows and intelligent automation.
- Implemented AI chatbot integrations, OpenAI APIs, AI-assisted workflows, and scalable backend optimization.
- Optimized MySQL and SQL Server queries, frontend performance, backend APIs, and enterprise application workflows.
- Managed Docker deployments, AWS infrastructure, Azure DevOps pipelines, GitHub workflows, and CI/CD release management.
- Implemented automated testing using Jest and Cypress to improve production reliability and application stability.

- Collaborated with Agile teams on sprint planning, architecture discussions, debugging, code reviews, and production deployments.

Key Projects

Enterprise Medical & DNA Analysis Platform

Technologies: Angular, React.js, Node.js, NestJS, SQL Server, Docker, AWS

- Developed forensic and postmortem laboratory automation systems used by U.S.-based medical laboratories.
- Built responsive frontend dashboards and scalable backend APIs for enterprise workflows.
- Integrated barcode tracking systems, JSReport templates, secure workflows, and audit trail logging.
- Implemented RBAC systems, backend automation workflows, and cloud deployment pipelines.

Enterprise AI Assistant & RAG System

Technologies: React.js, Node.js, NestJS, Python FastAPI, OpenAI API, MongoDB, PostgreSQL, Docker, AWS

- Developed AI-powered enterprise assistant system integrated with LLM workflows and intelligent document search functionality.
- Built scalable frontend UI modules and backend APIs using React.js, Node.js, and FastAPI AI services.
- Implemented AI chatbot systems, enterprise automation workflows, and intelligent AI integrations.
- Integrated OpenAI APIs, AI-based search systems, and scalable enterprise backend architecture.
- Optimized API performance, cloud deployment workflows, and database integrations for enterprise-scale usage.

Software Engineer – RA Infotech Solutions, Pune

February 2023 – January 2025

- Developed enterprise-grade full-stack applications using Angular, React.js, Node.js, PHP, and MySQL.
- Built and maintained scalable REST APIs integrated with MongoDB, SQL Server, MySQL, and enterprise backend systems.
- Engineered large-scale ERP Education Systems handling 29+ enterprise modules and multi-role workflows.
- Developed reusable frontend components, responsive UI systems, and scalable backend services.

- Implemented Authentication and Authorization systems using JWT security, RBAC, and secure HTTPS communication.
- Built Barcode Inventory and Asset Tracking systems with real-time dashboards and backend integrations.
- Optimized frontend performance, backend APIs, and database queries for enterprise-level scalability.
- Managed Git workflows, deployment pipelines, debugging, testing automation, CI/CD integration, and production support.
- Collaborated with Agile teams on scalable architecture implementation and enterprise project delivery.

Key Projects

ERP Education System – Vedanta

Technologies: Angular, React.js, Node.js, MySQL

- Developed 29+ enterprise modules including HR, Payroll, Attendance, Examination, Reporting, Student Management, and Administration.
- Built scalable backend APIs and responsive enterprise dashboard systems.
- Developed reusable frontend components and optimized enterprise reporting systems.

Barcode Inventory & Asset Tracking System

Technologies: React.js, Node.js, MongoDB

- Developed enterprise barcode tracking platform with real-time inventory management and reporting dashboards.
 - Implemented multi-role access systems, backend integrations, and scalable frontend UI workflows.
-

Software Developer Intern – Swapra Technologies

October 2022 – February 2023

- Worked on frontend and backend development using Angular, React.js, Python FastAPI, and SQLite database.
- Developed responsive UI applications and backend API integrations.
- Built Shirdi Sai Baba Pathasowtha Management System for user management and reporting workflows.
- Worked on CRUD operations, authentication systems, API integrations, debugging, and backend development.
- Assisted in deployment, testing, and maintenance activities.

EDUCATION

Degree	Institute	Year	Score
MCA	Piren's Institute of Computer Technology, Loni	2020 – 2022	75%
BCA	Pune University	2018 – 2020	64%
Class XII	Maharashtra Board	2018	68%
Class X	Maharashtra Board	2015	72%

CERTIFICATIONS

- Team Leadership Award 2024 – RA Infotech Solutions
- JavaScript Certification – Swayam NPTEL
- PHP and MySQL – IIT Bombay Spoken Tutorial Project
- AI-Assisted Development & Enterprise Automation Workflows
- OpenAI API & AI Integration Workflows

LANGUAGES

- Marathi – Expert
- Hindi – Expert
- English – Professional Working Proficiency
